Please note that this paper was presented in July during DARK98-Second International Conference on Dark Matter in Astro and Particle Physics (Heidelberg, Germany); nowadays there are more details and crucial developments in the last OPERA paper: CERN/SPSC 98-25, LNGS-LOI 8/97, Add.1 Addendum to the Letter of Intents, Oct 9, 1998, that you can also find in <http://www1.na.infn.it/wsubnucl/accel/neutrino/opera.html>.
